How can my business benefit from using this service?

Tough times call for greater innovation. Putting our documentary credit team within easy reach of exporters for them to call on, as and when needed, is another way that we are helping businesses through the recession.

Banks are scrutinising documents exporters present against letters of credit more closely than at any other time and many businesses are seeing rejection rates rocket. Our specialists check hundreds of millions of dollars worth of credits annually and have a vast amount of experience in dealing with banks.

We provide a back office service to several multi-national businesses as well as looking after the needs of smaller local exporters.

Exporters we work with have achieved the following benefits from using this service:

- Quicker payments
- Bank query rates reduced from 1:5 presentations to 1:100 for one client
- Bank refusals challenged by our specialists and overturned
- Pre-presentation checks of shipping documents - 24 hour guaranteed service or we don't charge
- Comprehensive reports highlighting what you need to do explained in clear terms
- Freed up staff time at busy periods or during holidays

Putting exporters back in the driving seat

Compare the 'true' cost of handling Letters of Credit against this tried and tested service and you will never look back.

Shaped around your needs and as flexible as you want it to be, this service, from credit checking to complete document preparation, leaves you free to concentrate on other areas of your business knowing that your letter of credit is getting the very best attention.

We adopt a best practice approach to dealing with banks, suppliers and shipping agents and we know the rules. We're ready to challenge the banks when they get it wrong and we often do.

What does it cost?

To check your shipping documents against a letter of credit costs £59 plus VAT.

Working from scanned or hard copy documents each check is carried out by two specialists working independently of each other. Their findings are incorporated into an easy to read report that is emailed to you within 24 hours of receiving your instructions.

Chamber International Letter of Credit Checking Form Ref: 2.0
