Quality delivered by the Arab British Chamber of Commerce

Arab-British Chamber of Commerce (ABCC) is a membership organisation, founded in 1975, to promote economic activity and facilitate trade in both directions between the UK and the 22 member countries of the League of Arab States. The Chamber's mission is to help companies take advantage of the unlocked business potential whether they are new to the markets or more experienced players wishing to extend their operations overseas. That means providing the right kind of services that will assist in building trade links and strengthening Arab-British co-operation, by breaking down cultural barriers and refocusing business on the many investment and export opportunities that exist in the Arab World. For nearly 40 years the Chamber has developed a broad range of services, expertise and knowledge which prove invaluable to both British and Arab businesses. Joining the Chamber offers companies a strategic advantage by putting them in contact with a wide and influential professional business network which is centred on our strong and productive ties with Arab and British chambers of commerce and the broader Arab-British business communities.
